# **formatR**: Format R Code Automatically

## Yihui Xie[*]

## June 17, 2013

The package **formatR** (Xie, 2013a) was designed to help users tidy (reformat) their source code. This vignette serves as a placeholder for Sweave only, and the real vignette was written in R Markdown with **knitr** (Xie, 2013b): `https://github.com/yihui/formatR/wiki/`. The R Markdown source can be found at `https://github.com/yihui/formatR/tree/master/inst/doc/formatR.Rmd` or:

```r
system.file("doc", "formatR.Rmd", package = "formatR")
```
